

65% Shade Cloth

Our Raschel Knitted Shade Cloth is a technical textile knitted from virgin HDPE tapes. Its construction prevents fraying and tearing when tapes are cut, ensuring lasting resistance for a longer lifetime and a uniform shading over the covered area. Available in a wide range of options according to specific needs, our solutions have been tested for decades and fitted for each application, from agriculture to architectural shading structures.

General Characteristics

The composition of our shade cloths delivers a lifetime expected of a product designed and manufactured to the highest quality standards. Marienberg's formulas minimize UV degrading of the polymers, ensuring a higher durability in harsh outdoor conditions against seemingly similar products.

Main Uses

Our Raschel Knitted 65% Shade Cloth can be used for shading in barns or plant and flower nurseries. It can also have an ornamental function

Warehousing Guidelines

Keep in a clean, dry and protected place at room temperature. Avoid direct exposition to UV rays. Do not make direct contact with energetic oxidants and aliphatic, aromatic and halogenated hydrocarbons. The Shade Cloth can be kept indefinitely if these conditions are met and the product is kept inside the original packaging.

Standard Technical Specifications

Recyclable
